

Skin Aesthetic Technician NSQF Level 4

Therapist > Skin Aesthetic Technician NSQF Level 4

Become a certified Aesthetic Skin Technician with this comprehensive 690-hour professional program designed for those aspiring to build a career in advanced, non-invasive cosmetology. This course equips learners with in-depth knowledge of skin science, cosmetic ingredients, acne care, anti-ageing solutions, facial electrotherapy, HydraFacial, peels, microdermabrasion, pigmentation management, and laser hair removal. Learners also gain strong foundations in client consultation, workplace hygiene, digital skills, employability, and customer service—making them job-ready for clinics, dermatologists, salons, med-spas, and aesthetic centres.
